WHO WE ARE

A Responsive, Accountable Route to Procurement

**Tshiamo Boikhutso**

Director, AndreaMargLi Trading (Pty)
Ltd

AndreaMargLi Trading was established to give clients a responsive and accountable route to personal protective equipment, workwear and industrial safety products. Our role is to simplify sourcing — we assess requirements, coordinate suppliers, consolidate product needs and stay directly involved from quotation through to delivery.

“Every order receives direct management attention, from enquiry through to delivery.”

This catalogue brings together our full product range across hand, eye, head, hearing and respiratory protection, workwear, footwear, height safety and site consumables — supplied from trusted brands including 3M, Uvex, DuPont, Lemaitre, Bova and many more.

Clients are updated proactively rather than left to follow up, quotations are itemised so there are no surprises, and there is always a direct line back to the person managing the order. Where a product is unavailable or a timeline changes, we say so early and offer alternatives.

We look forward to supporting your organisation's procurement requirements.
